PROJECTS

Tic Tak Toe

First Semester Project based on C Programming.

<https://github.com/SusheelThapa/Tic-Tak-Toe>

Enemy Clicker

First project based on SDL2 and C++ after i have learned it. In this game, square box of different size come from top and we need to click over it.

<https://github.com/SusheelThapa/Enemy-Clicker>

A Phone Call

Third Semester Project based on SDL2 and C++ in which we have try to simulate how calling phenomenon works in real life.

<https://github.com/SusheelThapa/A-Phone-Call>

Patient Medical Record Management

An incomplete project(front-end), after the completion of blockchain-fellowship(front-end not included) where user can allow particular doctor to update or see their medical status

<https://github.com/SusheelThapa/A-Phone-Call>
